

What to do in a major emergency

Information from Vopak Terminal Windmill Ltd,
Momentive Specialty Chemicals Ltd and Dow Corning Ltd.

1. Warning you about a danger

- If there is an emergency we will sound our siren
- It sounds on and off for 5 minutes
- We test the sirens on Mondays between 3pm and 3.30pm

2. Actions to take

✓ You should:

- Go indoors immediately
- Stay calm
- Close all windows and doors
- Block draughts and stop ventilation fans
- Listen to local radio or TV
- Follow instructions given by any of the emergency services

**Go in... stay in...
tune in!**

✗ Do not:

- Collect children from school
- Go outside – wait until told it is safe or the all clear sounds
- Call emergency services unless you need their help – keep phone lines free

3. All clear

All clear signal is a continuous blast of the siren lasting one minute.

4. Where you can get more information

- Turn on your TV to BBC Wales, ITV Wales or S4C.
- Listen to local radio stations (see the list opposite).
- Listen for any loudspeaker announcements.
- Follow any instructions you are given by the police or other emergency services.
- Use Messageline to hear updated information about the incident.
