

## Custom Packaging Services

### SERVICE AREAS & SPECIFICS

#### Custom Packaging

Packaging to meet your specifications – bigger or smaller, syringes, sausages or cartridges, side-by-side, single-application sizing or drum quantities – whatever your application requires

#### Sample Packaging

### Description

User-friendly packaging for your electronics applications from a global supplier.

If your application requires special packaging or different packaging than you can find today, Dow Corning Custom Packaging Services can provide the solution.

Offering a broad range of user-friendly small packages, designed to meet industry and application needs, we can fulfill your packaging needs. We are continually adding additional package sizes to our standard package line. From simple to more complex packaging (e.g., two-part, side-by-side cartridges with an included static mixer), we can package or repackage both Dow Corning and non-Dow Corning materials. Take advantage of our expertise in handling and processing materials at multiple locations around the world.

### Benefits

Proven Solutions – A proven track record ensures appropriate solutions for your specific applications.

### Industry Expertise –

Dow Corning has experience with electronics industry practices and standards that affect you, in your industry.

Technology – Our facilities and technological capabilities are continuously updated to provide effective solutions for your advanced and growing needs.

Globality – Wide-ranging capabilities that span the globe provide coverage wherever your needs exist – with sales offices, manufacturing sites and science and technology laboratories around the world.
