

# Prototype Formulation for Sheen Finish Cockpit Enhancer

## *Auto Care Formulation Information*

### Cockpit Enhancer – Sheen Finish

Formulation reference: IP-610

### Description

This cockpit enhancer uses a silicone emulsion at low dosage. It incorporates a wax emulsion with large particle size, which gives uneven light reflection. The result is a perceived lower gloss finish. This is important for light reflection control on treated surfaces, e.g., dashboards, that can distract the driver from the road.
