

Heart to Heart Charity Ball

The residents of Rancho Santa Fe, Minhang District held a ball on Saturday, May 31st with the proceeds being donated to Heart to Heart.

Heart to Heart is a non-profit community outreach organisation formed by expatriates. Volunteers donate their time and raise money to give support to disadvantaged Chinese children who have congenital heart defects. Funds raised go towards the sponsoring of a child's heart operation or the purchasing of new toys, books, clothing, food and blankets for the hospitalised children. Each operation costs 25,000 RMB.

Dow Corning generously donated 50,000RMB on this evening, enough to sponsor two children to have heart operations. The evening was a great success and the total amount raised was sufficient to sponsor SIX children. Several Dow Corning expat employees attended the ball and are pictured presenting the check to Christine Cullen, the director of Heart to Heart.
