

## Dow Corning Construction Industry 2010 Technical Training Academy

Dow Corning is more than just your innovative materials supplier. We want to be your partner for every stage of your project from concept to completion and this partnership starts by sharing our proven experience in silicone sealants and adhesives.

To support this knowledge sharing, we have developed the Dow Corning Technical Training Academy for Quality Bond™ members ([www.qualitybond.com](http://www.qualitybond.com)), customers, channel partners, curtain wall companies, architects, system designers and consultants who may benefit from interacting with our Dow Corning technical and sales support team. In view of participants' diversity in background, this will also be an opportunity to create new contacts.

In 2010, this training will be offered in English, French, German and Spanish at our European manufacturing site in Seneffe, Belgium. Class size is limited to 16 participants per session for reasons of convenience.

The training agenda can be adjusted according to common needs but includes the following topics:

- Seneffe site safety induction
- Silicone chemistry, important sealant properties and sealant test methods
- Sealant supply chain overview: from chemistry to production (includes sealant production tour with guide)
- Structural glazing technology – history, design, products, performance and standards
- Insulating glass technology – design, products, performance and standards
- Project management and quality control procedures
- Dow Corning® Quality Bond program presentation
- Customer project support laboratory: from theory to application (practical part)
- Building envelope weatherproofing – design, products, performance, standards, application and quality control
- Building material protection – product overview and selection guide
- Thermal performance of curtain wall and windows and doors
- European construction warranty process

**DOW CORNING**

The 2010 Construction Academy training will take place at Dow Corning Europe SA in Seneffe, Belgium. Dates are as follows:

English on 26 & 27 January 2010

German on 24 & 25 February 2010

French on 25 & 26 May 2010

Spanish on 16 & 17 June 2010

English on 22 & 23 September 2010

English on 23 & 24 November 2010

The training lasts two days and begins promptly at 9:00 and concludes at 16:30 the following day. Dow Corning will provide meals during the two days training while transportation and lodging costs are the responsibility of the participants.

Please contact your Dow Corning representative to get your participation supported. You will be contacted via email by Ms. Audrey Everaerts ([audrey.everaerts@dowcorning.com](mailto:audrey.everaerts@dowcorning.com)) confirming your participation. Additional information including directions to our facility, hotel recommendations, etc. will be provided nearer the time.

Book your calendar and register now!
